

Covid19 update

At Lighthouse we are keen as always to help out in our community and are already finding ways to do this.

Some of the ways we can help are :

- Providing craft for families to use at home as a substitute for our usual craft day, to help keep children occupied.
- Helping with essential shopping where this is difficult for families.

Please contact us on the email or phone number shown on every page of our website.

For more resources for children, please see our resources page which we will add from time to time.
